EDUCATION

Flex Full Stack Web Development Certificate

Georgia Institute of Technology

Oct 2022 - Apr 2023

Atlanta, GA

SKILLS

Programming Languages Bash | JavaScript | TypeScript | C# | Python

Technologies AWS EC2/S3 | React | Next.js | Tailwind CSS | SQL/NoSQL | Shadcn | Node.js

EXPERIENCE

ProDiagnostics Medical Center

Sep 2024 - Present

Software Developer

Atlanta, GA

- Designed and implemented an automated email template application, streamlining patient communication workflows.
- Provided IT and networking support to maintain smooth office operations.
- Currently developing a responsive website featuring contact details, services, appointment scheduling, and patient intake forms.

Maximotor

Mar 2021 - Feb 2024

Shop Manager

Marietta, GA

- Managed customer relations by diagnosing issues, preparing estimates, and providing repair status updates.
- Trained and mentored four entry-level technicians to perform complex mechanical tasks independently within 6–12 months.
- Developed a company website using the MERN stack to showcase services and facilitate customer engagement.

Village Garage

Sep 2018 - Feb 2021

Technician

Atlanta, GA

- Engineered custom solutions for older vehicles with hard-to-find components, showcasing creativity and resourcefulness.
- Collaborated with customers to deliver tailored repairs and modifications, meeting their specific needs.

NOTABLE PROJECTS

Tomato Duck - Pomodoro Timer with Chat Bot

2024

[tomato-duck-v2.vercel.app](#)

Chatbot App

- Built with React, Node.js, and MongoDB. Features include OpenAI-powered chatbot, global state management with Zustand, and email notifications via NodeMailer.
- Front end deployed on Vercel; back end on Render. Code hosted on GitHub ([GitHub Repository](#)).

NextStore

Mar 2025

[NextStore](#)

E-commerce App

- Developed using Next.js and TypeScript. Styled with Shadcn and Tailwind CSS for modern, responsive design; data managed with Supabase and Prisma.
- Integrated Clerk for user authentication and Stripe for payment processing.
- Deployed on Vercel; source code available on GitHub ([GitHub Repository](#)).

Maximotor

2023

[maximotor.vercel.app](#)

Company Website

- Developed a full-stack MERN website featuring user authentication, contact forms, and responsive UI with TypeScript and Chakra UI.

Professional Portfolio

2023

[ivanfelipe.com](#)

Portfolio

- Built with React and TypeScript. Styled using Tailwind CSS with Daisy UI components; integrated animations with Framer Motion.
